

This safety data sheet has been prepared in accordance with the requirements of EC Directives 1999/45/EC and 2001/58/EC and provides information relating to the safe handling and use of the product.

1. PRODUCT AND COMPANY INFORMATION

Product Code	0158589
Trade Name	Super Attak
Manufacturer/Supplier	Henkel Loctite Adhesives Ltd.
Address	Watchmead, Welwyn Garden City, Herts., AL71JB. UK
Phone Number	01 707 358800
Fax Number	01 707 358900
Emergency Phone Number	+353-1-4599301/+353-87-2629625/+353-1-4046444

2. COMPOSITION / INFORMATION ON INGREDIENTS

Nature Cyanoacrylate adhesive.

Hazardous Components in Product for EC

Component Name	CAS / EINEC Concentration	R Phrases	Classification
Ethyl Cyanoacrylate	7085-85-0 230- 70.00 - 90.00 391-5	R36/37/38	Xi

3. HAZARD IDENTIFICATION

Irritating to eyes, respiratory system and skin.
Bonds skin and eyes in seconds. Highly reactive to water. (See Section 4 on first aid).
Cyanoacrylates give off heat on solidification. In rare cases skin contact with a large drop may generate enough heat to cause burns to the skin.

4. FIRST AID MEASURES

First Aid - Inhalation

Remove affected person to fresh air, and if still feeling unwell seek medical attention.

First Aid - Skin

Do not pull bonded skin apart. It may be gently peeled apart using a blunt object such as a spoon, preferably after soaking in warm soapy water. Cyanoacrylates give off heat on solidification. In rare cases a large drop will generate enough heat to cause a burn. Burns should be treated normally after the adhesive has been removed from the skin.

If lips are accidentally stuck together apply warm water to the lips and encourage maximum wetting and pressure from saliva inside the mouth. Peel or roll lips apart. Do not try to pull the lips apart with direct opposing action.

First Aid - Eyes

If the eye is bonded closed, release eyelashes with warm water by covering with wet pad. Cyanoacrylate will bond to eye protein and will cause periods of weeping which will help to debond the adhesive. Keep eye covered until debonding is complete, usually within 1-3 days. Do not force eye open. Medical advice should be sought in case solid particles of cyanoacrylate trapped behind the eyelid cause any abrasive damage.

First Aid - Ingestion

Ensure that breathing passages are not obstructed. The product will polymerise immediately in the mouth making it almost impossible to swallow. Saliva will slowly separate the solidified product from the mouth (several hours).

5. FIRE FIGHTING MEASURES

Non flammable product (flash point is greater than 80°C (CC)). If product is involved in fire extinguish with dry powder, foam or carbon dioxide. Trace amounts of toxic fumes may be released on incineration and the use of breathing apparatus is recommended.

6. ACCIDENTAL RELEASE MEASURES

Ventilate area. Do not use cloths for mopping up. Polymerise with water and scrape off floor.

7. HANDLING AND STORAGE

Handling

Ventilation (low level) is recommended when using large volumes. Use of dispensing equipment is recommended to minimise the risk of skin or eye contact.

Storage

For optimum shelf life store in original containers under refrigerated conditions at 2°C to 8°C.

8. EXPOSURE CONTROLS / PERSONAL PROTECTION

Occupational exposure limits**Ethyl Cyanoacrylate**

The TLV for ethyl cyanoacrylate is 0.2ppm(ACGIH, TWA).

The TLV for ethyl cyanoacrylate is 0.2ppm(ACGIH, TWA).

Polyethylene or polypropylene gloves are recommended when using large volumes.

Do not use PVC, rubber, nylon or cotton gloves. Eye protection should be used where there is any risk of splashing.

9. PHYSICAL AND CHEMICAL PROPERTIES

Physical State	Liquid.
Colour	Clear Colourless.
Odour	Sharp. Characteristic.
pH	Not determined.
Boiling Range/Point (°C)	Boils above 100. °C.
Flash Point (CC) (°C)	Exceeds 80. °C.
Specific Gravity	ca. 1.1 g/ccm at 20 °C.
Solubility in Water (kg/m³)	Immiscible. Reacts with water.
Solubility in Acetone	Soluble
Vapour Pressure (mmHg @25°C)	Not determined.
Explosion Limits (%)	Not determined.

10. STABILITY AND REACTIVITY

Polymerisation will occur in the presence of moisture.

May polymerise if exposed to alkalis. catalysts. peroxides. free radical initiators. alcohols.

11. TOXICOLOGICAL INFORMATION

Inhalation

Irritating to respiratory system. In dry atmosphere with < 50% humidity, vapours may irritate the eyes and respiratory system. Prolonged exposure to high concentrations of vapours may lead to

11. TOXICOLOGICAL INFORMATION

chronic effects in sensitive individuals.

Skin

Irritating to the skin. Bonds skin in seconds. Considered to be of low toxicity: acute dermal LD50 (rabbit)>2000mg/kg. Due to polymerisation at the skin surface allergic reaction is not considered possible.

Eyes

This product is an irritant to the eyes. Liquid product will bond eyelids. In a dry atmosphere (RH<50%) vapours may cause irritation and lachrymatory effect.

Ingestion

Cyanoacrylates are considered to have relatively low toxicity. Acute oral LD50 is >5000mg/kg (rat). It is almost impossible to swallow as it rapidly polymerises in the mouth.

12. ECOLOGICAL INFORMATION

Biodegradable product of low ecotoxicity.

13. DISPOSAL CONSIDERATIONS

Dispose of in accordance with local and national regulations. Polymerise by adding slowly to water (10:1). Dispose of as water insoluble non-toxic solid chemical in authorised landfill or incinerate under controlled conditions.

14. TRANSPORT INFORMATION

UN Number	3334
Air (IATA)	Aviation regulated liquids, n.o.s (Cyanoacrylate Ester). , Class 9, Packaging Group - Maximum quantity, cargo aircraft: 220 l Maximum quantity, passenger aircraft: 100 l
Sea (IMO)	Not applicable.
Road (ADR)/Rail (RID)	Not applicable.

15. REGULATORY INFORMATION

Contains	Cyanoacrylate. Danger. Bonds skin and eyes in seconds. Keep out of the reach of children.
-----------------	--

Labelling Information

Irritant

R phrases

R36/37/38 Irritating to eyes, respiratory system and skin.

S phrases

S23 Do not breathe vapour.
S24/25 Avoid contact with skin and eyes.
S26 In case of contact with eyes, rinse immediately with plenty of water and seek medical advice.

15. REGULATORY INFORMATION

Voluntary Labelling -**16. OTHER INFORMATION**

MSDS data revised 12 March 2004**Hazardous Components in Product for EC****Component Name**Ethyl Cyanoacrylate
R36/37/38**R Phrases**

R36/37/38 Irritating to eyes, respiratory system and skin.
