

BIPLAST

PLASTIC COLOUR RESTORER

D7

VERSION: 031205
Page: 1/2

DEFINITION

BIPLAST is a water-based product for bodywork plastics repair.

In time, plastics can be damaged by the heat of the sun which modifies its aspect and amongst other things its colour. **BIPLAST** not only protects but also restores the colours of plastics to their original aspect.

BIPLAST is specially made for repair and restoring bumpers and hoods. It also hides scratches in bumpers.

BIPLAST is soluble in water. Use this solvent to clear tools and stained areas.

PHYSICAL CHARACTERISTICS

Nature:	Acrylic
Colour:	Black, Grey Anthracite
Specific weight:	1,2 kg/l at 20°C
Dry film thickness:	30-40 microns
Yield:	A 50 g tube is enough for a medium sized bumper
Voc:	42 g/l
Solid content:	57 %

APPLICATION

Clean completely the surface from grease, waxes or silicones.

Rub with a grey ROBRITE UF the area to be painted.

Wet the foam with water and apply **BIPLAST** on the areas to be treated.

If necessary, a second coating of **BIPLAST** can be applied once the first is dry.
